Phelan Flynn

832-702-5848

Mission

Our mission is to create a community where Texas State students who are struggling with Mental Health can come together to talk through their issues and seek resources to help them with their Mental Health.

Vision

Our vision is to create a welcoming community for all Texas State students to come to and feel a sense of belonging.

Community Engagement

Above is a recent picture of Delta Zeta Sorority members attending a Bobcats Belong event in February. At this event many sisters signed up to help volunteer at the semesterly concert hosted by our team. We have quite a few DZ's who are members of Bobcats Belong and come use our facilities weekly.

Impact

Since our start in 2022, Bobcats Belong has a total of 300 members and counting. What first started as a dream and idea by CEO, Phelan Flynn, has now become a vital organization on campus. Bobcats Belong sees about 100 people weekly at their facilities for different therapy sessions and small group activities.
